GVSD trustees present \$59.3M financial plan

By Lorne Stelmach

Taxpayers in Garden Valley School Division will be paying just over five per cent more in local school taxes in the coming year.

The increase is part of a 2024-25 budget that also increases by about five per cent to \$59.3 million, or an increase of \$2.7 million from the current school year.

With the province lifting the restriction on local school tax increases, it gave the division more leeway to meet the needs of an increasing enrolment that is forecast to rise by two per cent this fall to around 4,230 students.

"Balance was the key," board chairperson Leah Klassen said following a special meeting last Tuesday which introduced the draft budget. "We're grateful to our government partners in education to allow school boards the autonomy to raise taxes as they see needed in a reasonable manner.

"Garden Valley has traditionally run a very lean budget," she added. "It was definitely a challenge to take a look at all of the needs of Garden Valley because we haven't been able to infuse funding into that based on the decreased funding we have been receiving ... that probably was the biggest challenge, to look at overall and then what are the highest needs of the school division."

The budget means a residential property valued at \$300,000 will see an \$80 increase in local school tax to \$1,630. A \$500,000 business will get a \$200 hike to \$3,920, while \$2 million worth of agricultural land will be assessed \$310 more to \$6,270.

The budget sees 64 per cent of revenue coming through provincial funding, which overall increases by \$1.1 million to \$37.8 million, although a portion of that increase is targeted funding.

Municipal support through taxes then accounts for 34 per cent, rising by \$2.3 million to \$20.4 million.

The remaining two per cent comes from other sources.

Salaries and benefits make up 84 per cent of expenditures to a total of over \$49.8 million, while services account for eight per cent or about \$4.5 mil-

lion. Supplies, materials and equipment then represent five per cent or about \$3.4 million of expenditures, while the remainder is fund transfers.

The budget supports additional 2.5 school administration positions at a cost of about \$300,000. In addition, there is a half-time Indigenous co-ordinator, an increase in the transportation assistant from half to fulltime, and one additional high

"GARDEN VALLEY

RUN A VERY LEAN

BUDGET ..."

HAS TRADITIONALLY

school administrative assistant.

Capital projects include the Winkler Elementary School office relocation at a cost of \$350,000 and replacement of the JR Walkof School link for \$150,000 as well as window replacements at Northlands Parkway Collegiate for \$500,000.

"We were disappointed that those

windows were not doing what they should be doing," explained Klassen. Winkler's second high school opened in 2013.

opened in 2013.

"We undertook every avenue to try to find some party that was part of the construction process that we could get a remedy from," added secre-

tary-treasurer Kevin Vovchuk. "Unfortunately, it is going to be our cost."

Vovchuk sees the financial plan largely as a status quo budget but with a few initiatives, including primarily targeting additional administrative time and support.

"That was seen as a need, especially in some of our smaller schools, so it was targeted to try to provide more support to those specific schools."

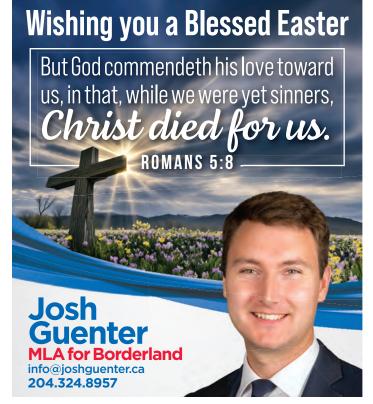

Klassen agreed there was a need for a bit more focus on student supports, including addressing areas related to mental health. "With the additional administration in our buildings, that is what we are hoping will help mitigate some of that," she said.

"Certainly some of the challenges was looking at all of the feedback our community had provided for us. We did lots of work in terms of consultation," noted superintendent Dan

Ward. "We also talked to our school leaders, our staff, and we really gauged where the needs were, and we really did see that in our schools there's increased pressures on student services and certainly increased pressures on our school leaders.

"It's why we added some staffing to our school leader allotment. Most of our part-time school leaders, and that would be our vice principals, also take on the role of student services, be it guidance teachers or resource teachers ... and we know that often the role of vice principal is much more than just a quarter time," said Ward.

"So with additional time in those buildings and adding two part-time vice principals to two of our smaller schools—Plum Coulee and Southwood—that makes a huge difference."

CFDC eager for this summer's dig season

"EVERYBODY WHO

FOUND AT LEAST

ONE FOSSIL."

WAS OUT LAST YEAR

By Lorne Stelmach

The excitement never lessens for an avid fossil hunter like Gerry Peters.

The longtime volunteer and now technician for the Canadian Fossil Discovery Centre in fact may have almost never been as excited as he was last summer when not one but two new mosasaur fossils were uncovered north of Morden.

"These things have been sitting under the ground just waiting for somebody to come and expose them ... and I've been collecting fossils since 1975, but I always get a big kick out of it," Peters said last week as he looked over pieces of the most recent finds. "Both of them are per-

haps the best finds I have ever found for sure. I often find individual bones or maybe a handful from one animal, but to find hundreds of bones from one is special."

The finds were made early last season on the museum's property near what is commonly known as the Mount Nebo and Twin Sisters sites. The CFDC had purchased an excavator which could be used to more quickly clear out the top layer in looking for possible new places to dig.

"I think it was maybe the second or third day out clearing. I had picked a few areas that I thought were likely to have good exposure," recalled Peters. "I was scraping off some of the over-burden, some of the loose shale, from on top very carefully in just thin

"I saw one of the bones just peeked out. It was a different colour than the

> surrounding shale. So the tractor stops, and you get out with the paint brushes immediately. I could tell there was a few of the vertebrae there, so there was a good chance there would be more."

> The early June timing was perfect as it meant the influx of dig tours could be put to work

on the discovery. The museum's fossil crew only found maybe a dozen or so of the 300 bones—the rest were found by visitors.

"We dug there basically all summer. Every time we brought a tour out there, they all got down on their hands and knees and started slowly moving stuff away," said Peters. "It's exciting for people to find the fossils. We left a lot of the fun for them. We wanted to do it ourselves, but this was better. It

was an exciting time. Everybody who was out last year found at least one fossil."

While working on that first find, Peters noted he then found traces of yet another mosasaur nearby.

"I actually was digging a little drainage ditch ... I think it was the second scoop of dirt I took out and came upon another little fossil. I could see right away it was a different colour."

The finds have been given the nicknames of Baratheon and Stark, two family names from Game of Thrones. The first fossil so far has perhaps 320 bones while the other one is up to

"Both of them are ongoing digs," Peters said. "This is just what we have found so far."

With the first find, they have found pieces all the way from the neck bone back to the tip of the tail, so it is enough that they can make a good guess at the possible size. Peters estimated both of them probably would have been in the six-metre (20-foot) range in length, much smaller than their most famous mosasaur Bruce (who is 43 feet long), but still signif-

"We have better ones, but these were near the surface for a long time, so they have had to survive a lot of freeze and thaw cycles ... they were breaking up a lot, so we have had repairs to do," said Peters. "They're decent. We have far more pristine fossils, but we also have ones that are way worse.

Supreme Court denies churches' request for appeal

By Voice staff

The Supreme Court of Canada has decided not to hear the appeal of several churches who challenged Manitoba's lockdown restrictions during the pandemic.

Five Manitoba churches, a pastor, and a deacon were seeking a Supreme Court ruling after two lower courts ruled against their assertions that public health orders in 2020 and 2021 closing in-person religious services and restricting outdoor gatherings violated the Canadian Charter of Rights and Freedoms.

A Manitoba justice had ruled in 2021 that the restrictions were necessary to prevent the spread of COVID-19. That decision was then upheld by the Manitoba Court of Appeal last year.

"Our clients are disappointed in the Supreme Court's decision not to hear their appeal," Allison Pejovic, lawyer for the applicants, said in a statement issued by the Justice Centre for Constitutional Freedoms. "Governments urgently needed the Supreme Court of Canada's guidance as to the degree to which they should accommodate Charter rights during a future pandemic or other emergency proclaimed by government. Leaving that issue undecided at the highest level is a grave injustice for all Canadians."

As is its usual practice, the Supreme Court did not explain its decision.

> CFDC, FROM PG. 3

"We've got quite a ways to go," he explained. "It's a slow process ... if you don't do it right, you can lose the scientific information.

"You take time; you take a lot of notes. I've got pages and pages of notes and maps. We've plotted where every single bone was found in relation to all of the others ... everything is very meticulously written down."

Peters has had a lot of help in the dig from Will Kalinowski, a recently retired teacher who was helping out with a class last year and then joined the CFDC as a volunteer.

"He did almost all of the opening of the field jackets and cleaning out the fossils," shared Peters. Peters sees the ongoing work as being a big boost again this year for the upcoming field season.

"It's good for the museum. It's good for the fossil centre because we have researchers from the University of Manitoba coming out ... and tourists are coming from far and wide," he noted. "Last summer, we had people from down in Texas and California, from all over the States and from Canada. Actually, we had far more people from far and away than we did from the local area.

"We're already taking bookings. I know by the end of last summer, we were completely booked up, and the space ran out."

SUPPLIED PHOTO

With two major fossil finds last summer, basically everyone who took part in a dig tour got to have a hand in discovering a fossil, says the CFDC's Gerry Peters.

Winkler council puts \$4.5M in surplus funds into reserves

By Ashleigh Viveiros

Winkler city council got the chance to do some welcome financial house-keeping last week.

At its March 12 meeting, council approved the transfer of the 2023 surplus to its reserve funds.

A little over \$3.6 million went into the general reserve fund and just over \$994,000 went into the utility fund.

City manager Jody Penner explained to council where the surplus money came from.

"We had an unexpected amount of income from interest, which was \$1.3 million," he said. "That's because of some delays on our major projects for which we've put funding aside but haven't started."

That includes both the water treatment plant expansion and the new wastewater treatment facility. Both those projects are in tendering phases and are expected to start later this year.

"And then there's \$2.2 million that comes from a change that the province made in 2023," Penner continued. "For quite a number of years, municipalities were frozen as to the funding we got per capita from the province, both for municipal operating and for our police service. In 2023 they decided to try to get us caught up on that funding."

There was also an increase in water sales for the year.

"The reason that water sales were up in 2023 is that we had that drought here the previous year, where we asked our residents to do a fair bit of water conservation, which they did, and that resulted in lower water sales," Penner explained. Water usage then jumped back up in 2023, resulting in the surplus.

Mayor Henry Siemens noted the City of Winkler is not legally allowed to run a deficit, but a surplus of this size is unusual.

"When we do our budgeting, we're always careful to work towards a small surplus, that three to five per cent range that allows the city to do business and be prepared for unexpected," he said. "And quite often we get maybe a little closer to 10 per cent.

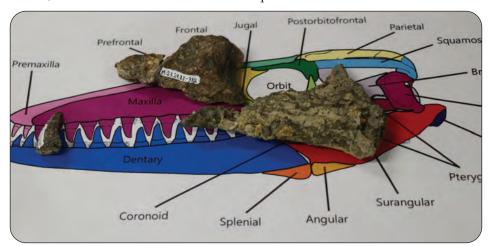

"This number is significant," Siemens said of the over \$4.5 million in excess funds. "It's a very welcome number because in 2016 our grants for policing and operating were frozen [by the Conservative provincial government] and didn't change for seven years.

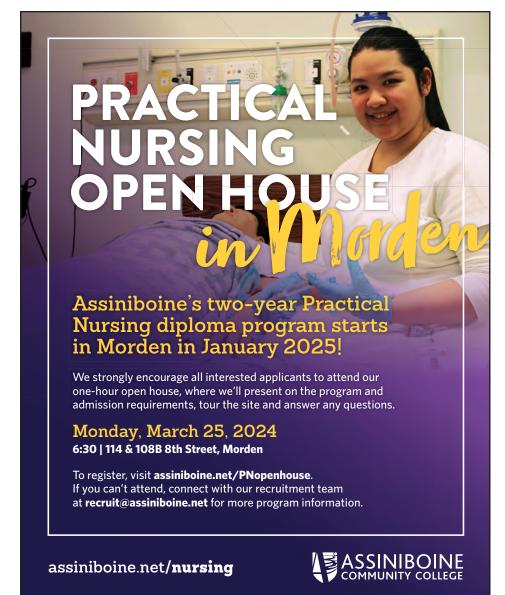

"During that time, we wanted to continue to operate our community as we did ... we had to use from our own operating funds from our own reserves to be able to do that."

The NDP provincial government that took office last fall has a different approach to municipal support, Siemens noted.

"So now to see the province coming back with an intention to hopefully make us whole and keep us whole, allows us to take these monies, put them back into reserve and allow us to come closer to funding our asset management plan and maybe making some opportunity to not have as significant a [tax] increase in the future because it allows us to get closer to where we need it to be.

"So very welcome news. Terrific numbers. Happy to see it."

Minnewasta Golf's clubhouse is on track for fall opening

By Lorne Stelmach

Construction of the new clubhouse at the Minnewasta Golf and Country Club is progressing nicely, putting the building on track to open this fall.

After some initial delays with the project, favourable weather over the winter has helped work to keep pace, head pro and general manager Greg Hesom said last week.

"We're moving along now, and I would imagine September or October we will be finished, and it is starting to look beautiful," he said. "It is looking like we have envisioned.

"I think we have to remember it's a big building. It's a very customized building, so it's not cookie cutter ...

and we did have some delays right at the beginning of the project. When you start digging, you always find stuff you didn't expect to find underneath, so we had to work around that," Hesom said. "If we get

finished by September or October, a 16-month build on a building of this scale in our area is actually a pretty quick build."

A fire destroyed the old restaurant and clubhouse in late 2021. Minnewasta worked with LM Architectural Group of Winnipeg on the design and plans for the new facility being built by Triple E Developments.

There were a couple key elements that became a focus with the design, including capitalizing on the view of the course. There will also be a section of the patio area that will be raised to serve as a stage, as they hope to bring back special events like the Friday Night Lights concerts.

The hope is also to have the restaurant be a year-round facility operated by Santa Lucia. There will also be golf simulators to help attract people in the off-season.

News tip? Call 204-325-6888

The priority early on was to get the roof up and windows in so that the building was sealed to allow the interior work to get started, noted He-

"Lots of the door framing is finished, and electrical is busy, plumbing is busy, and lots of mechanical stuff is already in the basement," he said. "They'll continue to work away at all of that ... you can't see progress from the outside, but you know how much is going on in the inside.

"There's lots of traffic that comes driving by to check it out on a daily basis. I think we'll really get a good sense of the excitement once the golf season starts and we've got people here on a daily basis and visitors com-

> ing from outside the city who haven't seen it or haven't looked at it on a daily basis."

> Minnewasta working from a funding base of about \$3 million through insurance coverage, and the fundraising campaign

has so far brought in \$1.4 million, including a \$300,000 grant from the province, but Hesom said the final overall price tag is not entirely set in

"IT IS STARTING TO

LOOK BEAUTIFUL ..."

"It's a bit of a moving target whenever you have a project of this size, but we're where we expected to be," he said, estimating the building itself is around \$5.5 million, but there is then all of the extras including extensive landscaping and patio space as well as all of the furnishings, media components, kitchen, and golf simulator rooms.

"All of that stuff adds up on top of the actual building project," Hesom

The loss of a voice

tarting a business is not for the faint of heart. Many people question if the stress and anxiety related to such an endeavour is even worth it.

But starting a newspaper in the 21st century? I mean, no one starts newspapers anymore. Newspapers are supposed to be shut down by big, impersonal corporate entities after they've been sucked dry of every

last possible cent of profit and the staff have been fired without so much as a thankyou. What kind of person would start something like a newspaper?

Well, Rick Reimer did.

By Peter Cantelon

Rick passed away March 9 after battling a long illness and since learning of this I have been dwelling on his impact in my life and the lives of people throughout the Pembina Valley and, more broadly, throughout Manitoba.

A long time ago in the impossibly distant past of 2010, in the land of Morden and Winkler, Rick, along with his business partners Lana Meier and Brett Mitchell, started the Winkler Morden Voice as part of a new community newspaper initiative in Manitoba that included the Selkirk Record and the Stonewall Teulon Tribune.

There were MANY who questioned the initiative. There were many who predicted the endeavour would not

last the year. Well, here we are 14 years later and this small group of community newspapers has grown to include the Express Weekly News, the Carman Dufferin Standard, and the Altona Rhineland Voice.

To be frank, the Voice was a lifeline to me back when I was going through an incredibly difficult time in my life. It started right in the middle of my "what the heck am I going to do now?" phase and became the critical foundation for rebuilding.

If not for Rick, there would be no Voice. If not for Rick, there would have been no editor in Ashleigh Viveiros to take a chance hiring a guy like me as a full-time reporter. A guy who didn't have an article in his portfolio newer than 1996.

I liked Rick. It was hard not to like Rick. You have to understand many journalists do not get along with their publishers. In fact, many have downright hostile relations with their publishers. This is mostly because a lot of publishers are meddlesome and so focused on revenue that they seem to have lost sight of the point of journalism in the first place.

Rick was not like this. If the dictionary had an entry for "Nice Guy" it would be Rick's picture next to it. He was open, friendly, supportive and had a near permanent enormous smile. He actually cared about peo-

Don't get me wrong, Rick was human like the rest of us. He was also a good businessperson. I think part of his success was due to the fact that he was a genuinely likeable guy. He didn't ignore the need to drive sales and create revenue because he understood that without it, the newspaper vanishes. But he kept an appropriate distance from the content.

Without Rick, community journalism in Manitoba would be less. Without him, you would not have had to hear me whine and pontificate for the past 14 years (don't be too hard on him for that).

Rick helped to create opportunities for journalists and journalism in Manitoba. His efforts have contributed to creating and saving careers. He made a difference, and he did it mostly from the background, quietly working to ensure there was a community newspaper that connected people and kept them informed.

You may not have known Rick, but if you've read the Voice or any of its family of newspapers he has had an impact on your life.

Rick made a difference. I'm sad that he is gone, but his *Voice* continues.

Winkler Family Resource Centre hosting trivia night

By Ashleigh Viveiros

Calling all trivia buffs: the Winkler Family Resource Centre's annual Trivia Night fundraiser is coming up in a few weeks.

The WFRC has put a call out for teams of four to eight people each to square off in their space at the Emmanuel Mennonite Church on Thursday, April 4.

A local quizmaster will be leading the night with questions that will span the knowledge spectrum, says executive director Chantal Human.

"We're going to do various categories, a little bit of everything," she says, stressing there will be something for just about everyone.

Space is, however, limited.

"We have room for up to 20 teams," Human says, noting last year's registration filled right up.

All proceeds from the evening go to the centre's free early childhood education programs designed to help pre-schoolers hone their literacy, numeracy, and social skills.

"Our big thing right now is that all of our programs fill up super quick," Human says, explaining they hope to look at expanding their programming in the future, but need the financial support to do so.

The night also serves as a way of reaching out to people who might not otherwise know much about WFRC.

"I keep hearing from people in the community that they didn't know

we exist, so we're putting some effort into getting our name out there, really growing the organization and being able to hopefully provide more programs," Human says.

The night begins at 7 p.m. at 750 15 St. Deadline to register is March 29. You can do so online at winklerfamilyresourcecentre.com or via email to director@winklerfamilyresourcecen-

Carman Gun and Hobby Show returns on April 6

By Ty Dilello

The Carman Gun and Hobby Show will return for their 33rd year on Saturday, April 6 from 9 a.m. to 3 p.m. at Carman Hall (60 1st St NW). Admission is \$7 daily, with children 12 and un-

The organizer for the event is Bruce Reid, who can be contacted at carmangunshow@gmail.

"We plan on having the Carman Hall full with 80 tables with some new and interesting stuff for sale," said Reid. "Back for another show, will be food served by Crazy Lady's Cafeteria. We are having two draws this year with the prizes supplied by Kel-Lea Outdoors out of Homewood. This show is generating a lot of interest from all over the area as there will be guns, ammo, a gunsmith, and a few knife makers in attendance. Also, one vendor will have info about acquiring your gun license."

The Gun Show has a special charity portion to the event as they raffle off an item and donate 100 per cent of the proceeds to a different charity every year. This year, the proceeds will go to Katie's Cottage.

"It's a very special place to stay near the Boundary Trails hospital," said Reid. "And it's a place that some of my family stayed at in the past when my wife was a patient there at the hospital."

Tories shuffle shadow cabinet

By Voice staff

Morden-Winkler MLA Carrie Hiebert has some new responsibilities on her plate.

The Manitoba Progressive Conservative Shadow Caucus did some shuffling last week as the spring legislative session got underway.

As a result, Hiebert sees mental health added to her existing portfolio of housing, addictions, and homelessness.

Other changes include Caucus Whip Doyle Piwniuk taking on responsibility for Manitoba Public Insurance and Efficiency Manitoba; Bob Lagassé (Francophone affairs critic) adding sport, culture, heritage and tourism to his duties; Obby Khan (finance and Manitoba public service) getting Manitoba Hydro and the Public Utilities Board; Grant Jackson assuming responsibility for the education and early childhood learning portfolio; and Konrad Narth (Manitoba Liquor and Lotteries Corporation critic) adding transportation and infrastructure.

"With the wisdom of our veteran MLAs and the energy of our newly-elected members, we have a strong team bringing new ideas to the table, challenging Wab Kinew's tax-and-spend ideology, and being a voice in the legislature for all Manitobans," said Conservative leader Wayne Ewasko in announcing the changes.

Taking the plunge

By Lorne Stelmach

Over two dozen participants braved the icy waters of Lake Minnewasta Saturday for the annual Polar Plunge.

The 28 plungers collectively raised close to \$18,000 for Special Olympics Manitoba, and a representative of the organization sang Morden's praises for the strong support.

"It's a great amount of money," said Adell Gauthier, director of fund development with Special Olympics Manitoba. "Morden is our frontrunner at the moment for sure, and that is often the case."

This was the eighth year that people were "freezin' for a reason" in support of the Law Enforcement Torch Run and Special O.

The Morden plunge has raised close to \$170,000 since its start in 2015. It is one of four such events held throughout Manitoba each year.

Kara-Jean Miller of Portage la Prairie is now a seasoned pro at it, having done the plunge about 20 times. She estimates she's raised more than \$20,000 in donations over the years.

Her motivation is a brother who is a Special Olympian, and she was excited to be coming to Morden for the first time.

"I thought I would come out and come try something a little different and plunge into the lake," she said, calling it a different sensation from the tanks used at other events.

"It's just pretty much a big shock. It's well worth it though," she said. "I also do it because I love seeing how the Special Olympians faces are so happy we're representing them and helping them."

Candace Collins was part of a team of five participants from Access Credit Union.

"We were told it will take our breath away. It will be a shock, but it will be worth it. It will be exhilarating," Collins said shortly before jumping into the lake. "I think it's cool to be able to do it here at the lake for sure."

Access Credit Union is also a provincial sponsor for the Polar Plunge, and they presented a donation of \$7,500 for the cause.

"We're just thrilled to be able to give back to our community, and one of

Twenty-eight people took part in this year's Polar Plunge in Morden Saturday in support of Special Olympics Manitoba.

the areas we love to support is sports and recreation and wellness," Collins said.

Gauthier said the Morden-Winkler area in general has been a strong supporter of Special Olympics.

"We are absolutely amazed and so grateful for the support that we have from the Morden Police Service and this incredible community," she said. "Each year they impress us with the group they are able to bring out.

"Their efforts allow us to be able to provide sport programs to adults with intellectual disabilities," Gauthier said. "And there's an incredible amount of support in this central region. We wouldn't be able to provide the programs that we do without all of the volunteers, the coaches and the fundraising efforts like we saw here today."

The team from Access Credit Union brought along a corporate donation of \$7,500 for the event, which raised nearly \$18,000.

Sunshine Highway Relic Run scheduled for July 23

By Ty Dilello

A group of local historians in southern Manitoba have recently taken it upon themselves to see what they can learn about the old Sunshine Highway that ran from Brandon to Sioux City, Iowa, in the early 1920s. They've even planned an old car run on the Highway this summer to trace the early Manitoba motorists' routes.

Coincidentally, Mike Webber, a volunteer printer and tour guide at the Crystal City Printing Museum, has researched the Sunshine Highway for several years.

"WE'RE STILL LOOKING

FOR SOME OLD CARS

THAT WANT TO MAKE

THE DRIVE THAT DAY.

SO PLEASE GIVE US A

SHOUT."

In Crystal City Courier newspaper files from 1921, Webber discovered information about the Highway's opening. He has since found the original route maps and the Route handbook, which give information about the towns along the route, as well as their dining, hotel, and "automobile servicing facilities."

This was before the fed-

eral government developed long stretches of roads; instead, organizations would scout good local roads that interconnected to form routes that could take you across the

The handbook even provides the name of a Highway representative (or ambassador) in each town who would assist tourists if needed. Local civic groups would check the roads, encourage good maintenance from local road departments, and establish official highway signs marking the route.

Sheet metal signs were 18 inches square with a yellow background. In the center was a black letter "S" that was stylized in a circle for Sunshine Highway that motorists

were to follow. Signs along the road marked and left right turns with an R about the circled

PHOTOS BY NANCY HOLMAN)
The Sunshine Highway Relic Run takes place across southern Manitoba this summer on July 23.

> SUNSHINE HIGHWAY, FROM PG. 9

The Sunshine Highway starts right in Brandon and goes south through the Brandon Hills, Wawanesa, Glenboro, Baldur, Glenora, Rock Lake, Crystal City, the U.S./Canada border, Sarles, North Dakota, Devil's Lake, North Dakota, and South Dakota, before ending 700 miles later at Sioux City, Iowa.

The Sunshine Highway was officially opened at a ceremony in Crystal City on July 23, 1921. Mayor Dinsdale of Brandon, plus the mayor of Woonsocket, South Dakota, Mayor Dalton, who was also the President of the Sunshine Highway, accompanied by 75 officials of the Highway, took part in the ceremony at Crystal City.

The Highway's original staff had hoped to extend it through Nebraska, Kansas, Oklahoma, and Texas to the Rio Grande, but this never happened.

The Highway was on a stretch where farmers and stockraisers were prosperous. Tourists will find a town every ten miles along the Highway, which is the natural north-south Highway for people wanting to reach the Canadian Northwest or the heart of the Dakotas. It's the ideal Highway to reach the Black Hills or Yellowstone National Park.

A committee of Alan Melvin, Charlie Baldock, Bill Sandercock and Mike Webber, joined by Gordon Goldsborough of the Manitoba Historical Society, plan to re-enact that opening day with a journey of about 110 miles from the U.S. border south of Crystal City to Brandon.

The trip will be called The Sunshine Highway Relic Run, and vehicles built in 1940 and earlier are invited to take part. Like that initial opening-day journey, the committee is hoping for 30 vehicles to make the trek. Many of the roads will be gravel, not paved highways, so this may limit who will be willing to risk dust and stone damage to their old vehicles.

The committee proposed that the old vehicles stop at museums along the route to break up the driving and give the relic riders a chance to explore some history.

The Sunshine Highway Relic Run is set for July 23 with a rain date of July 24. For more information or to sign up, contact Melvin at 204-529-2104 or akmelvin@gmail.com.

"It's going to be a very exciting day," said Melvin. "We're still looking for some old cars that want to make the drive that day, so please give us a shout if you want to come on the ride along the Sunshine Highway."

> GUN SHOW, FROM PG. 7

The spring show that they held in Carman has been very well attended in the past. Over 1,000 people came through to check out the vendors. This year, vendors will come all over from Manitoba, Saskatchewan, and Ontario

"It's one of the only locations you

can go and see so many at one point. The owners know all the info and history about the guns, so you're getting all that knowledge firsthand. The atmosphere is great, and everyone seems to have a common idea as it's the same kind of hobby."

Reid is excited to see how many

people will come out on April 6 to Carman Hall.

"Everyone is welcome to take in the day to browse, shop, trade or sell. All signs are looking like another great show with all the regular and new people attending."

12 essentials to have on hand for everyday boo-boos

Did you know the bathroom is the worst place to keep your first-aid kit? It's the most humid room in the home, and humidity can harm the effectiveness of various medications. Keeping your first-aid kit in a cool, dry and dark place is best. Here are some essential items you should have in your home pharmacy to cover common emergencies:

- 1. A complete first-aid kit that includes a thermometer, scissors, tweezers, a tick remover, adhesive dressings, sterile gauze, hot and cold compresses and elastic bandages
- 2. Hydrocortisone cream to soothe insect bites and minor irritations
- 3. An analgesic, such as acetaminophen, to relieve headaches, fever and pain
- 4. An antacid to counteract gastric reflux

- 5. An antihistamine to combat seasonal allergies6. Antibiotic ointment to prevent minor infections from cuts
- 7. An anti-nausea medication, particularly for travelling
- 8. An antidiarrheal and a rehydration solution to replenish lost fluids and mineral salts
- 9. A saline solution to relieve congestion and cleanse the sinuses
- 10. A topical analgesic to ease muscle aches and pains
- 11. An after-sun treatment, such as aloe vera 12. Eye drops

Your home pharmacy will be well stocked with these essentials. Clean yours out yearly and take expired medication to your local pharmacy for safe disposal.

MARCH IS PHARMACY APPRECIATION MONTH

Someone asked me recently WHY?

Why build; why be independent; and why bother with a Doctorate in Pharmacy? This is why: my passion for helping does not 'fit' into a chain or a big box store. My method of helping people is grassroots and motivated by changing lives. I know I can improve your wellbeing, whether it is while I provide medications or during an appointment. My expertise in pharmacy and my 30 years of experience give me the tools and courage to be an entrepreneur in Morden. Along with my Doctorate, I am also certified in Travel Health and Sexual Health; I can prescribe many medications; and I easily consult with other healthcare providers to bridge this gap in healthcare. It is a very tough time in healthcare, and I am committed to helping make it easier for you.

Winkler Co-op pitches new name: Gardenland Co-op

By Ashleigh Viveiros

Winkler Co-op is going back to its roots as it looks to the future.

Co-op announced last week that it has selected a new name to better reflect all the communities it serves: Gardenland Co-op.

"We got well over 500 different suggestions. It was overwhelming," said general manager Evan Toews.

Co-op staff and board members whittled the list down to a handful of leading contenders, and Gardenland ultimately came out on top.

"It has some historical meaning with the past and the cooperative movement in southern Manitoba," Toews explains. Gardenland was a brand tied to the products that came out of the old cooperative creamery that operated in Winkler in the mid-20th century.

The name is also a nod to the region's deep agricultural roots.

"It ties into the rich, fertile soil and the gardens that are grown here,"

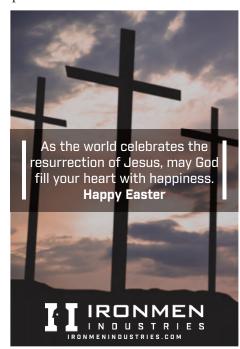

Voice What's **you'v** story? 204-325-6888

While the Winkler Co-op name has been in use for over 80 years, a more inclusive moniker is important as they continue to grow.

"We needed something that's more fitting for all the communities that we serve," Toews said. "Winkler Co-op served us well for those years ... but it just really doesn't truly encompass all the communities that we have facilities in today."

Co-op has retail and service locations in Winkler, Morden, Lowe Farm, Plum Coulee, St. Joseph, Rosenort, and Rosetown.

The name will be voted on by Co-op members at the annual general meeting taking place on Wednesday, April 10 at the Buhler Active Living Centre in Winkler. The meeting begins at 7

SUPPLIED PHOTOS

Winkler Co-op is looking to change its name to Gardenland Co-op. It's a name that was used by the Winkler creamery for its products a century ago, and also reflects the region's agricultural roots, says general manager Evan Toews.

PHAC welcomes Jennifer Smirl as new gallery director

By Lorne Stelmach

Stepping into the role of gallery director for the Pembina Hills Arts Council feels much like coming full circle for Jennifer Smirl.

It was the Morden gallery and then director Pamela Smith who first helped her get started as an artist, Smirl noted last week as she prepared to take over from departing director Liza Isakov.

"I started out not to far from here ... and I had Pam help me with getting work into the gallery here. This was the first place I had work for sale, and she sold stuff. I was ecstatic about that," she recalled.

That led to her getting into the central region juried art show and then to art school in Winnipeg. Now, she comes to the gallery director role as an experienced artist with over 20 years in exhibiting and selling art.

She also brings experience related to programing, grants, fundraising, and community involvement, so that makes the job an ideal fit for her.

"The gallery here has always been a beacon ... growing up, it's also been the next step into getting into the city as an artist," Smirl said. "Being able to get that experience that you get in a gallery of this size, to get to the next level, was instrumental in me getting comfortable with the arts on a professional level

"When I saw this position come up ... a flag went up ... this is coming full

circle.

"THIS IS COMING

FULL CIRCLE."

Smirl noted she has benefitted from being mentored herself and has been able to serve as a mentor as well, so she looks forward to bringing that experience back here to help others.

"I know what it's like trying to get your work out there, coming from a smaller place, and it can be very daunting ... so I want to be able to help those people," she said. "I feel like have the experience to be able to pull those people together and create a cohesive artistic community, which is what I'm looking for myself."

Smirl prioritizes being organized, and she sees the gallery already being well organized thanks to Isakov's

efforts.

"It feels like this place, coming out of the pandemic, everything is starting to click, and it feels like we can do some really amazing things," she suggested. "It feels like we're going to really

take off again, and I really like that feeling. I'm really wanting to be part of it."

Isakov has mixed feelings about leaving the job as she and her fiancee relocate to Winnipeg.

"It's kind of bittersweet ... it is sad to leave a place like this because we have done so much beautiful work and had such beautiful exhibitions, workshops, programming, outreach and community events. It's been quite a rollercoaster ... I've enjoyed my time here greatly."

She sees Smirl as being well posi-

PHOTO BY LORNE STELMACH/VOICE

Incoming gallery director Jennifer Smirl with outgoing director Liza Isakov

tioned to take on the challenges of being the gallery director.

"It's exciting. It's a lot of exploring, a lot of networking that has to be done. It leads to a lot of interesting conversations, and bringing people together is kind of the underlying foundation of the organization here," said Isakov. "The focus is bringing people to the art world, bringing them into a sense of community and feeling togetherness."

"Having Liza here with me has helped me feel a little more confident," said Smirl. "Some of our ideas have been exactly the same ... she's already got the ball rolling, and I'm catching up."

Smirl now looks to keep the momentum going and move forward as she works to build the relationships in the community.

"I'm just so happy to be here, and thanks to the community for having such a great place here ... it's fantastic, what is already here, and I can't wait to do more things and have fun with it

"Come in and give us your ideas, let us know if there's things that you want."

Katie Cares, Ronald McDonald House to benefit from Access CU golf tournaments

By Voice staff

Access Credit Union has announced the date for its 11th annual charity golf tournament.

The 2024 edition will take place on-Wednesday, Sept. 11. Tournaments will be held that day at both the Minnewasta Golf & Country Club in Morden and at Bridges Golf Club in Starbuck.

The two charities selected as recipients of the proceeds from this year's tournaments are Katie Cares and Ronald McDonald House Charities Manitoba.

"These two organizations provide a priceless service for families in our province during challenging times," said Larry Davey, CEO of Access Credit Union. "We value the work that they do, the compassion they provide, and the feeling of community they deliver to every family they serve. We are excited to work together, in turn helping Manitobans for years to come."

Katie Cares operates the Katie's Cottage respite home beside Boundary Trails Health Centre and also distributes stuffed animals and care packages to kids receiving care in hospitals across southern Manitoba.

It was founded by the late Kaitlyn Reimer. Her family carries on the teenager's vision today.

"Katie Cares is pleased to have been selected by Access Credit Union to join Ronald McDonald House as one of the beneficiaries of the annual Access Charity Golf Tournament," said CEO Ruth Reimer. "It is exciting to be aligned as co-benefactors with RMHC for this golf event, as Ronald McDonald House was the inspiration for Kaitlyn's dream and vision to build the home at Boundary Trails hospital. A huge thank you to Access Credit Union for recognizing Katie Cares as an important part of the fabric of our province."

Ronald McDonald House Charities Manitoba is a charitable organization that supports the health and well-being of children receiving medical care by providing essential services and a home away from home for their fam"Annually across RMHC Manito-ba's two core programs (Ronald McDonald House and Ronald McDonald Family Room), the health and well-being of over 1,000 families are supported with essential services and a home away from home when their ill or injured child receives medical care in Winnipeg," said CEO said Wendy Galagan. "We are deeply grateful to Access Credit Union for recognizing and valuing our mission, and for making RMHC Manitoba families stronger because of this generous partnership."

Tournament registration will open later this spring. Details will be posted online at accesscu.ca/charitygolf.

Creating pysanka works of art

PHOTOS BY LORNE STELMACH/VOICE

series of workshops in Winkler and Morden last weekend saw participants trying out the traditional ancient folk art of pysanka. Instructor Yevgeniya Tatarenko (left) taught participants about the history and meaning of the Ukrainian tradition of decorating Easter eggs. Decorating them now has become a gesture of peace, as the war with Russia has brought new meaning to an old tradition that dates back to pre-Christian times.

Morden traffic stop leads to human smuggling arrest

By Voice staff

A traffic stop by Morden Police led to an Ontario man being arrested for human smuggling last week.

On March 12, a 34-year-old man was taken into custody by the Manitoba RCMP Integrated Border Enforce-

ment Team (IBET) on charges of human smuggling and counselling misrepresentation under the Immigration and Refugee Protection Act.

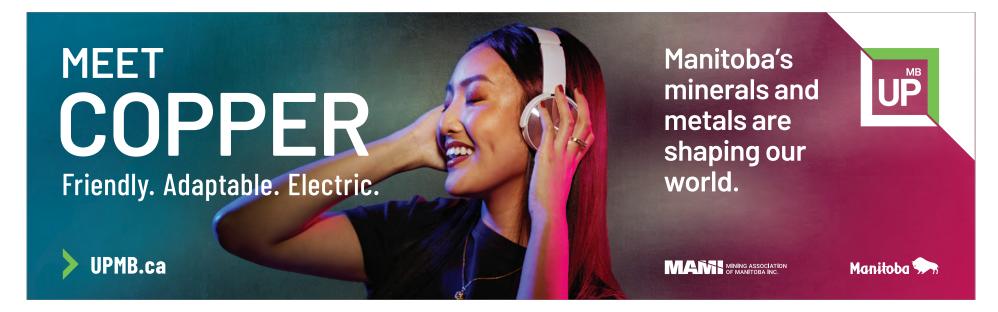

RCMP say that the investigation into the man's activities began after Morden officers pulled over his vehicle just before midnight on Monday,

March 11.

At the time, the driver had five passengers in his vehicle who were arrested under the Customs Act. All five were dressed in layers for the cold weather. Four of the passengers were in their 20s, while one was 58 years of age.

The police investigation determined that all the passengers were going to attempt to enter the United States. Of the five passengers, two had valid status in Canada.

The investigation continues.

Hayward makes history with third provincial title

By Ty Dilello

Carman's Shaela Hayward became the first curler in Manitoba history to win three provincial championships in one season after capturing the 2024 Manitoba Mixed Curling Championships on Sunday evening at the Neepawa Curling Club.

And that's not all Hayward has won this season. Hayward's wom-

en's Carman team also won gold at the national U-18 championships in Ottawa, back to back Manitoba High School Athletic Association provincial curling banners and competed at the 2024 Manitoba Scotties in Morden where they posted a positive 3W-2L record.

Hayward, who was playing third for Ryan Wiebe, along with Ty Dilello and Jennifer Clark-Rouire out of the Fort Rouge Curling Club, stole the winning point in the eighth end to win 4-3 over Carberry's Braden Calvert (Kelsey Rocque, Trevor Calvert, Alyssa Calvert) in the provincial final.

Team Wiebe went 6-2 at the provincials to win the championships, including a three-win day on Sunday by defeating Arden's Kevin Paramor, Deer Lodge's Sean Grassie and Calvert.

Hayward made this journalist and the rest of her teammates look very good all weekend long with her strong play on the ice.

"She's the real deal," said Wiebe. "We were very excited that Shaela joined our team, and everything worked out perfectly. It's an amazing accomplishment winning this provin-

cial together.

"I REALLY CAN'T

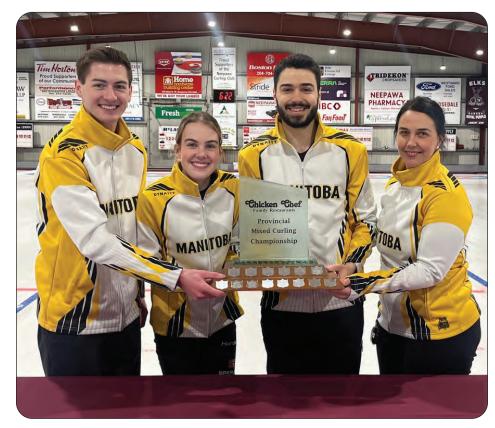

BELIEVE IT."

In addition to Sunday's mixed provincials victory, Hayward has also won this year's Manitoba U18 and U21 Provincials to make it a Manitoba alltime record of three provincial championships in one year. It's a major

accomplishment for the 17-year-old who is still wrapping up her Grade 12 year at Carman Collegiate.

"I really can't believe it," said Shaela Hayward. "This was the most nerve-wracking win of them all I think as it was really back and forth all game. It's going to be very exciting to be heading to another national championship. I can't wait."

Team Wiebe will now be headed to the 2024 Canadian Mixed Curling Championship to be played Nov. 3-9 at the St. Catherines Golf and Coun-

Fort McMurray, Alberta, this week-In the meantime, Hayward and her end for the Canadian U21 Junior Curling Championships, which runs from March 24 to 31.

Flyers finish season in second, now face Terriers in playoffs

By Ashleigh Viveiros

The Winkler Flyers wrapped up the regular season this week on a high note to finish in second place in the Manitoba Junior Hockey League East Division standings.

On Sunday, the team defeated the Winnipeg Blues on the road 3-1 in their final regular season game.

The Flyers lit up the scoreboard in each period thanks to goals from James Richards, Will Brophy, and Mike Svenson, while netminder Liam Ernst stopped 20 of the 21 shots he faced, letting Winnipeg's lone goal past early in the second period. The Flyers, meanwhile, had 31 shots on net.

The win came in the wake of a rocky few games last week.

After blanking the Winnipeg Freeze 10-0 March 12, the Flyers went on to lose to both Virden and Selkirk.

The Freeze game saw Ernst stop all 22 shots that came his way. His teammates fired 44 the other way, with Dalton Andrew having a five-goal night. Also scoring were Isaiah Peters, Trent Penner, Jakob Jones, Svenson, and Zach Nicolas.

Hosting Virden the next night, Winkler found itself on the other side of things as the Oil Capitals took the game 4-2.

Goals from Brady Craik and Nicolas had Winkler up 2-1 in the first 10 minutes, but then Virden went on to tie it up before the first intermission and score two unanswered goals in the second to win.

Malachi Klassen got the loss in net, making 33 saves as the Oil Capitals outshot the Flyers 37-30.

It was a similar story Friday night in Selkirk against the Steelers.

Winkler was behind by three when Nicolas finally got the team on the board midway through the second. Selkirk scored once more that period to head into the final frame up 4-1.

Penner and Avery Anderson did what they could in the third to close the gap, but it wasn't enough. Selkirk won it 5-3.

Klassen made 28 saves in net off 33 shots. The Flyers had 29 shots on goal.

With that, Winkler's record for the season is 42-11-2-3 for 89 points, which puts them eight behind the first-place Steinbach Pistons and nine up on the third-place Portage Terriers. Also earning a seat in the playoffs are the Niverville Nighthawks, who finished in fourth with 64 points.

In the West Division, the Virden Oil Capitals clinched first place followed by the OCN Blizzard, the Dauphin Kings, and the Neepawa Titans.

Winkler will now face the Terriers in the opening round of playoffs. Game one is Friday night in Winkler (7 p.m.), game two is in Portage Sunday, and game three is back in Winkler next week Wednesday (7 p.m.).

Kings finish off Hawks

Brandon sweeps Pembina Valley in three straight games

By Lorne Stelmach

The season came to an end for the male U18 Pembina Valley Hawks at the hands of the Brandon Wheat

Brandon earned its seat at the championship final round after a threegame sweep against the Hawks last week. It continues a near perfect season for the first-place Wheat Kings, who only suffered one overtime loss in 44 regular season games and are unbeaten so far in the post season.

Pembina Valley opened the series with a 6-1 loss on the road last Tuesday and then fell 4-1 in game two in Morden Thursday.

The series then moved back to Brandon for game three Friday, where it ended with a 4-2 loss for the Hawks.

The Hawks trailed 2-1 and 4-1 at the intermissions in game one as Brandon fired 48 shots at Pembina Valley goaltender Bryson Yaschyshyn, including 21 in the first period alone. The Hawks meanwhile only managed 22 shots, and Liam Goertzen scored their

In game two, the Hawks fell behind 3-0 in the first period and could not make it any closer than that in the end. Goertzen's third goal of the playoffs late in the first period was the only goal for the Hawks, who were outshot 42-17, with Yaschyshyn making 38 saves.

In game three, the Hawks spotted

PHOTOS BY RICK HIEBERT/VOICE Pembina Valley's Haiden Friesen tries to tip a shot past Brandon's Matthew Michta in last week's game two in the best-of-five playoff series, which the Wheat Kings ultimately took in three straight.

Brandon a 2-0 lead after 20 minutes but had it tied 2-2 at the second intermission. The Wheat Kings connected for the winner with four minutes remaining and then scored on a powerplay with 41 seconds left to advance to the next round.

Goertzen and Acoyen Fehr scored for Pembina Valley, while Yaschyshyn made 41 saves as Brandon outshot the Hawks 45-21.

The Wheat Kings will now face the second-place Winnipeg Wild, who eliminated the third-place Winnipeg Thrashers in four games.

Hawks Ryder Wolfe and Sam Delaquis team up to stop the Wheat King's Jaxon

End of the line for the SEMHL's Morden Bombers

By Ashleigh Viveiros

The last local team is out of the running for the South Eastern Manitoba Hockey League championship.

The Ste. Anne Aces, the regular season front-runners, are taking on the second-place Warren Mercs in the league finals after knocking out the Morden Bombers last week.

The best-of-five series went the distance after Warren came from behind 0-2 to wins games three and four.

The deciding game five last Tuesday night saw the Mercs, playing on home ice, win it 7-3.

Morden's Jay Fehr and Tyler Peers had gotten things off on the right foot for the Bombers, giving the team a 2-0 lead in the first 10 minutes.

But the wheels fell off the cart not long after as the Mercs tied it up before the first intermission and then took a 5-2 lead in the second.

Logan Christensen scored for Morden two minutes into the third in a bid to close the gap, but Warren responded a minute later with their sixth goal of the night, and then scored the seventh on an empty net as the clock wound down.

The Mercs outshot the Bombers 57-34. Reed Peters made 51 saves in net for Morden.

With that, the Bombers' season is over. They had placed fifth in the regular season and knocked out the fourth-place Portage Islanders in the first round of playoffs.

Elsewhere in the post-season, the Red River Wild (third place in the standings) and the Winkler Royals (sixth) squared off, with the Royals winning it in three straight to advance to the next round, only to see their season end at the hands of the Aces 0-3.

Ste. Anne took game one of the championship series 8-1 on Saturday and then won game two 5-2 Monday night. Game three is Wednesday night.

Waterhemp-know your enemy

By Lori Penner

Manitoba Agriculture is urging producers to keep their eyes open for waterhemp during the upcoming crop keep the plant's insidious seeds from spreading.

Tall waterhemp (Amaranthus tu-

season and do whatever it takes to berculatus), is a prolific Tier 1 weed under Manitoba's The Noxious Weed Act that can devastate crop yields. While it's been problematic in the

> U.S. for years, it was only discovered in Manitoba in 2016 and confirmed in 2017. By 2019, it was found in five municipalities. That number has now risen to eight.

These detections have involved a substantial number of acres and significant hours of mowing and spraying to destroy plant material.

Tests of Manitoba waterhemp show some plants are resistant to groups 9 (glyphosate), 2 and 14 herbicides. Glyphosate resistant plants are show-

PHOTO BY LORI PENNER/VOICE Provincial weed specialist Kim Brown urges producers to keep an eye out for waterhemp this crop season.

ing up on Manitoba fields in an alarming number, producing up to a million seeds per plant.

"We've kept it out until now, but it is here and it's not going away," says Kim Brown, a provincial weed specialist who works with Manitoba Agriculture and is involved in training and extension of new and existing weed issues.

MFGA Green Gold Program looking for hay or alfalfa producers

Program finds optimal alfalfa first-cut date with sampling results

By Becca Myskiw

Manitoba alfalfa producers can predict their optimum harvest date—and it costs them nothing.

The Manitoba Forage and Grassland Association (MFGA) has the longest-running producer-based program for Manitoba forage producers with their Green Gold Program. Running through May and June, the Green Gold Program calls for producers with hay fields that are mostly alfalfa, fairly new, and in good condition. Those producers will test their crops twice weekly (clipping alfalfa) throughout the May/June growing season until the first cut. MFGA will then send subscribed producers two weekly results for the entire sampling duration. The program provides growers with real-time information on the best time to cut the alfalfa stand.

Last year's Green Gold Program involved 23 fields from Central, Eastern, and Western Manitoba. Alfalfa sampling started on May 18 at 10 inches and ended on May 31 when most of the fields were in the early bloom stage. Last spring saw warm conditions followed by intense heat and an early frost before sampling. MFGA found the optimum harvest date to be June 1 for the Central and Western regions and May 31 for the Eastern/Interlake region.

MFGA says that by clipping alfalfa samples from fields, testing results suggest that the first cut date has a higher relative feed value for the optimum livestock feed value.

The MFGA Green Gold Program aims to encourage growers to be strategic with their alfalfa crop harvest, making decisions based on the best first-cut date for specific feed and market needs and field observations.

MFGA is looking for producers to participate in their Green Gold Program, which predicts the optimal harvest date for alfalfa growers.

The program relies solely on Manitoba alfalfa producers to clip and send in alfalfa samples twice weekly. Because the sampling happens in real-time, the results accurately reflect current weather conditions. Results are sent

to more than 300 MFGA Green Gold subscribers and stakeholders.

To learn more about the MFGA Green Gold Program or to sign up for it, go to https://mfga.net/green-

> WATERHEMP, FROM PG. 16

"Getting those invasive plants far away from your field and keeping them away should be a priority for every producer. You should pick them out. You should not run it through your combine because you will spread those thousands and thousands of seeds across your field. And that combine will spread it as well. You can't clean pigweed seeds out. It's tiny like little flakes of pepper. It just sticks. You will never clean it out. You will move it to every field once you run it through the combine."

At St. Jean Farm Days in January, Brown told producers there is no clear and easy way to control waterhemp. It thrives in hot, dry weather and germinates throughout the summer. Once you have it, it's almost impossible to get rid of it.

What should you do if you detect water hemp on your field? Brown says weed control must be done when the weeds are small, less than 10 cm or four inches. However, "rescue

treatments" of herbicides have resulted in poor control, at best.

Brown believes proper consistent management is the key.

"You're not going to get a population in a field that is 100 percent resistant to absolutely everything. You're going to have combinations. And that's why you keep using lots of different products. Some of them are only going to work on some of those plants. But you have to keep throwing stuff

Waterhemp does not appear to be a problem in competitive crops like wheat and canola, but it is a serious issue with corn, dry beans, sunflowers, and soybeans.

Brown says there are lots of things producers can do that don't involve a lot of extra capital or work.

"You could try herbicide layering to get weeds out early when the crop is non-competitive, and in-crop options become limited.'

Other options include narrow win-

dow burning, chaff carts, chaff lining and tramlining, and weed seed impact mills. Optimizing combine settings to

ensure weed seeds are captured has Continued on page 18

Twisters sweep Raiders to advance to MMJHL semi-finals

Zander Carels battles for puck control in the Twisters' 2-1 win over the Raiders last Friday.

By Ty Dilello

The Pembina Valley Twisters have advanced to the MMJHL semi-finals after a four-game sweep of the Raiders Jr. Hockey Club in the first round of the playoffs.

Following their strong performance in the first two games, the Twisters extended their series lead by defeating the Raiders 4-0 on March 12. Merek Degraeve was a standout for the team, scoring two goals, while Josh Guilford and Mark Plett also contributed to the victory. Goaltender Owen LaRocque stopped 21 shots for the shutout.

The Twisters sealed the series in Game 4 on March 15 with a 2-1 overtime victory over the Raiders. Brett Bergman and Slade Sotheran each

PHOTOS BY LANA MEIER/VOICE

Left: Pembina Valley's goaltender Logan Enns celebrates the win against the Raiders. Above: Josh Guildford is able to clear the puck before the Raiders' Nate Goodbrandson is able to get the rebound on Enns.

found the back of the net. LaRocque started in net and made 6 saves. Enns was brought in to finish the game at the start of the second period making 13 saves to secure the win.

"It's always great to advance rounds," said Twisters' head coach Braeden Beernaerts. "It was a tough series despite being over in four games, as many games could've gone either way. We were happy to get the bounces, and score timely goals."

"Our team's play has been great so far and we focused down on the little things from the start of playoffs. Despite a few moments in the games where emotions and fatigue had taken over, for the most part we stuck with it, and claimed the series."

The Twisters will now have some time off as they await the results of the other MMJHL quarterfinal series and see who they will matchup with in the semi-finals.

"The plan for the next few days is to keep the legs under us, as we can't get too complacent about what we've accomplished so far," said Beernaerts. "We plan to sharpen up on a few things, review our next opponent, and make sure we are ready for the next round."

> WATERHEMP, FROM PG. 17

also been shown to be effective in waterhemp management.

Manitoba Agriculture also encourages direct baling, right behind the combine so nothing hits the ground, and the chaff and the straw are dropped on the conveyor belt and go into a baler.

"Those weed seeds are still there, but they're in that bale. And they're moved off the field. So that is something that we are very concerned about, but that at least stops them from spreading in that particular field," said Brown. "And if that straw is being used as feed somewhere, we have to watch that manure. Those seeds are not slowed down at all by going through an animal."

Brown says producers need to learn to practice weed control with non-chemical methods. "The chemicals we have will fail. It's only going to get worse. So, we have to do everything we can outside the spray tank to reduce the number of weeds

we are spraying and the number of weeds on our field."

Manitoba municipalities are watching their ditches and mowing them, so waterhemp will not seed, but even this measure has limited results.

"Everywhere where there is a gap or black dirt, the seeds can take a hold. Every seed is resistant and can grow as big as it wants. We have to do everything we can to stop the seed from returning to the soil. We can do lots of things, like pick a taller variety of crop, seed heavy, and ensure good fertility to get that crop up and going. We want to have good emergence. We need to cover the ground quickly and we won't have these problems."

Farmers who spot an unusual looking weed should contact their agronomist or Brown at kim.brown@gov. mb.ca. They can also submit samples to the PSI Lab at mbpestlab.ca/about/.

PUBLIC NOTICE

PUBLIC NOTICE

The Council of the City of Winkler has scheduled a public hearing at Winkler City Hall, 185 Main Street, Winkler, MB on the 9th day of April, 2024 at 6:30 p.m. to present the following local improvement proposal:

GENERAL DESCRIPTION OF LOCAL IMPROVEMENT PLAN NO. 46

The proposed design concept for the redevelopment of the Winkler Arena is to demolish much of the interior of the existing arena and redevelop it into an approx. 1300 seat arena. Entrance into the redeveloped arena would be from the Meridian Centre at the Southwest corner. The proposed general scope of the renovation is to redevelop and modernize the existing arena by implementing energy efficient systems, constructing extensive code upgrades, and providing safe spectator viewing and inclusive public amenities. The recently constructed link connecting the Meridian Centre to the Centennial Arena would be expanded to enlarge the concessions, concession seating, and staff room.

The building envelope walls and roof will be upgraded to improve energy performance for a deep energy retrofit to meet the requirement for funding incentive programs including the Infrastructure Canada Green and Inclusive Community Buildings Program Grant (GICB) and the FCM Community Building Retrofit Program (CBR). The existing mechanical and electrical systems are dated and past service life and will require full replacement. As per the Building Condition Assessment Report, a complete electrical distribution system replacement is recommended.

The estimated cost of the Local Improvement plan is to a maximum of \$23,750,000.00. The Government of Canada has committed \$7,962,240.00 and the Province of Manitoba has committed \$3,137,500.00 towards the redevelopment of the Arena. The City of Winkler has committed \$5,150,260.00 from the Recreation Reserves towards the project. The balance of up to \$7,500,000.00 is to be funded by borrowing. The term of the proposed borrowing is 15 years at an interest rate estimated for the time being up to 8.00% per year. The annual debt payment of \$876,221.59 is to be raised by a local improvement tax calculated on the basis of the portioned assessed value of all taxable, grant-in-lieu and otherwise exempt properties within the City of Winkler.

Based on the 2024 Assessment Roll of \$1,133,555,000 an estimated mill rate of 0.773 mills will be required. Calculated on a residential property valued at \$300,000 (portion valued of \$135,000) a \$104.36 local improvement tax will be levied annually for 15 years.

The annual operating and maintenance costs associated with the proposed project will be covered under the City's annual recreation maintenance budget.

A written objection may be filed with the City Manager, at 185 main Street, Winkler, Manitoba, prior to the commencement of the hearing. At the hearing, Council will hear any potential ratepayer who wishes to make a presentation, ask questions or register an objection to the local improvement proposal.

All objections, written or verbal, must be filed prior to the adjournment of the hearing and must include the name, address and property description of the person filing the objection and the grounds of their objection.

Copies of the Local Improvement Plan No. 46 are available at the City of Winkler office at 185 Main Street, Winkler, MB, and on the municipal website at www.cityofwinkler.ca.

Dated at the City of Winkler this 14th day of March, 2024, and issued pursuant to Section 318 of The Municipal Act.

Jody Penner City Manager City of Winkler 204-325-9524 NOTICE OF DIRECTOR ELECTIONS ELECTRONIC VOTING AND ANNUAL GENERAL MEETING (the "AGM") MEMBERS OF ACCESS CREDIT UNION LIMITED (the "Credit Union")

TO: ALL MEMBERS OF THE CREDIT UNION

VOTING FOR BOARD OF DIRECTORS

TAKE NOTICE THAT voting for the Board of Directors is open to all members who have a share at any Credit Union branch. Voting will be done by electronic ballot and will be tallied electronically by a third party provider. Voting will be open from 9:00 am CDT on Monday, the 8th day of April, 2024 until 5:00 pm CDT on Friday, the 12th of April, 2024. Members of the Credit Union are invited to vote online at www.accessvotes.ca. Each member may vote on a personal electronic device or should any member prefer, devices for the purpose of voting will be available at all branches of the Credit Union during operating hours.

OTING FOR BYLAW CHANGES

TAKE FURTHER NOTICE THAT Voting will take place during the AGM held on the 16th day of April, 2024 to consider the approval of the amendment of the Credit Union's Bylaws. Instructions on registration, authentication, voting process, and technical support are available on our corporate website at www.accesscu.ca/AGM. Immediately preceding the meeting opening, and at the beginning of the meeting, members will be given instructions on how to ask questions during the meeting.

SUMMARY OF PROPOSED BYLAW CHANGES

The proposed Bylaw changes align the document with Credit Union Central of Manitoba's model and includes several amendments, a summary of which can be viewed at www. accesscu.ca/AGM. The proposed amended and restated by-laws are available on request.

At the meeting, a presentation will be made explaining the changes and their purpose. Members will have the opportunity to ask questions during the presentation, although not all questions may be answered if there is insufficient time. The Members will be asked to vote on the following motion: to approve the amended and restated by-laws as presented to the Members.

Each member may vote on a personal electronic device. Voting will end during the AGM and results will be shared.

RIGHT OF DISSENT

TAKE FURTHER NOTICE THAT, under the provisions of Section 127 of The Credit Unions and Caisses Populaires Act, you have the right to dissent to the proposed amendment. If you wish to dissent, you must send a written objection to the amendment to the Credit Union at or before the meeting of Members referred to in this Notice.

ANNUAL GENERAL MEETING

The AGM of the members of the Credit Union will be held on **Tuesday**, **April 16**, **2024 at 7:00** p.m. CDT via virtual means, for the following purposes:

- 1. 2023 Audited Financial Statements and Auditor's Report
- Board of Directors Report
- 3. Appointment of Auditors
- Announcement of Member Rewards
- 5. Director Elections Voting Results
- 6. Bylaw Changes Voting and Results

All eligible members wishing to participate in the AGM are required to register online at www.accesscu.ca prior to April 16, 2024 at 4:00 P.M. CDT. Instructions for voting processes and how to ask questions will be displayed on the screen commencing at 6:45 p.m. CDT. These instructions will also be reviewed at the opening of the meeting. More information can be found at: www.accesscu.ca.

DATED this 21st day of March, 2024 ACCESS CREDIT UNION LIMITED By Order of the Board of Directors

PUBLIC NOTICE

PESTICIDE USE PROGRAM Permit No. 2022036-3RR May 1, 2024 - October 31, 2024

Public notice is hereby given that the City of Winkler and/or its designated agents may conduct the following Pesticide Control Programs during 2024, if necessary, depending on infestations.

- 1. To control noxious weeds on road allowances and rights-ofway within the City of Winkler. The herbicides that may be used if required include: Round-Up, PAR III, Fiesta.
- 2. To control rodents at the Winkler Municipal Airport, Cemetery, and any location within City limits where the designated Officer deems necessary using rodenticide: Ratak and/or Rozul RTU.
- 3. To control mosquito larvae in stagnant water within the corporate limits and a 3-kilometer buffer area using Aquabac 200G and Vectobac 200G, on both private and public property. To control adult mosquitoes using Delta Gard.
- 4. To control horticultural insect pests using Malathion, Pyrate 480 EC, Trounce and Pounce.

The duration of each program will vary within this period depending on weather conditions and pest population levels.

All pesticides used and procedures applied will be in accordance with the approved label recommendations. The public may send written submissions or objections to the program within 15 days of the publication of this notice to the department below:

OBITUARY

Emma Martha (Kauenhofen) Emslie (nee: Hildebrand) 1929 - 2024

We are broken hearted to say our beloved mom passed away in the early morning of Saturday, March 9, 2024 at the Boundary Trails Health Centre. She was surrounded by her loving family.

Emma is survived by her four children, Brenda (Pete), Rodger (Leslie), Gregory (Penny), Terry (Pete), 12 grandchildren, eight great, great grandchildren, sister Mildred and brother Donald.

Mom had a wonderful smile and a laugh that was contagious. She had a huge heart and she also had the best hugs.

She loved flirting and joking around with everybody. She was a very strong woman, and was till the end. She had many talents,

like sewing and baking. She especially enjoyed playing cards with family and her cherished friends at the Legion. She loved music, her favorites were Johnny Horton, Conway Twitty, and

Hope you are dancing in heaven and reunited with your son Lorne.

Mom, you will always be in our hearts and we miss you very much.

Celebration of Life for Mom will be held at the Zion Evangelical Lutheran Church 144 7th Street, Morden, MB on April 6, 2024 at 4 p.m.

Cremation has taken place at Adam's Funeral Home.

OBITUARY

Susanna (Sue) Funk (nee Peters)

Susanna (Sue) Funk (nee Péters) of Altona, but her heart was in Gretna, passed away peacefully on Friday, March 1, 2024 at Altona Memorial Health Centre. She was 92 years young.

She is survived by her children Ev Kehler, Pat (Bernie) Derksen, Garry (Lori); grandchildren Jim (Vicki), Amber (Jeff) and six greatgrandchildren Willow and Fletcher, Camryn, Josee, and Payton and Zayd. Brothers Jake (Betty), Bill (Esther); sisters-in-law Kathy Peters and Vicki Peters as well as many nieces and nephews.

She was predeceased by her beloved Neil, son-in-law Harold, her daughter Judy, three brothers, three sisters and Neil's siblings and spouses.

Thank you to everyone for their prayers and love poured on mom over the years. Thank you for thoughtfulness in calls, cards, flowers, food and so much more in her passing.

We thank the staff for the kindness, care and thoughtfulness given to mom while she lived at 108 in the "old Ebenezer" at the Gardens on Tenth. Shellie, she appreciated the time you took to listen.

Thank you to our nurses and doctors, health care aides, kitchen, lab, cleaning, and maintenance at the Altona Memorial Hospital this last stay and the many other times she spent time there. Your thoughtful care will not be forgotten. We know your jobs are not easy. Thank you.

Dr. Al-Abbasi, we appreciate all your kindness and care you gave to our mom.

Abe and Trevor at Wiebe Funeral Home, Altona, you did more than anyone could expect. Thanks for your patience and kindness. Thanks to Laverne, Marilyn, Erica, Altona Hospital Auxiliary, Elsie and MaryAnne and many others who helped make the service a good farewell.

We will miss our loving mama, granny, great granny, auntie, sister, friend and Jets fan!!

OBITUARY

Richard Donald Reimer

It is with great sadness that we announce the passing of our beloved husband and father Richard Donald Reimer, who passed away peacefully at home surrounded by his family, on the evening of March 9th, 2024 at the age of 71.

After a long and courageous battle with cancer, he was ready to go home to his Heavenly Father. Rick's faith remained unwavering as he faced the many struggles of his illness in the last years of his life. He was an inspiration to those who knew him.

Rick was born in Winnipeg in 1952. His childhood was spent in St. Vital, where he grew up with three siblings including a twin brother. He excelled at school and in sports, later going on to attend Wayland Baptist University in Texas on a scholarship for track and field.

After graduating university, he moved back to Winnipeg where he managed a fitness centre. This is where he met Colleen, who he married in 1988. Wonderful years followed as they raised their three children together, Sam (1993), Holly (1995), and Joelle (1997). Rick loved being a dad and he greatly enjoyed spending time with his family going hiking, tobogganing, on bike rides and family road trips. Also special for him were the trips to the Dominican with Colleen and their close friends, and many good times at the cottage in Victoria Beach. Rick had a passion for watching hockey and football, reading books, and bird watching in the backyard. He also loved a hot cup of tea, cookies, and extra cheese on everything!

Rick worked hard and always pursued excellence in everything he did. He started managing fitness centres and then went on to own his own gym. A career path change led him to become an advertising sales rep for the community newspapers in the Interlake. He later became publisher of the newspapers in southern Manitoba. Rick and his two business partners then went on to establish their own group of award-winning community newspapers.

Rick was a devoted husband and loving father. His family and friends will miss the many conversations with him in which he shared his insight, wit and wisdom. We will also miss the many laughs we had as he shared his fun-loving and goofy side, which was so endearing.

He will be forever cherished by his beloved wife of 35 years Colleen, and children Sam, Holly (Chris), and Joelle. He is predeceased by his father Stanley Reimer and brother-in-law Tim Jeffrey. He is survived by his mother Joan Reimer as well as his siblings Daryl (Ruth) Reimer, Dave (Marty) Reimer, and Corrine Jeffrey. He will also be remembered by his nieces and nephews, aunts and uncles, cousins, Colleen's side of the family, as well as many dear friends and colleagues.

In lieu of flowers, donations may be made to Siloam Mission in memory of Rick.

Altona Skating Club hosts annual achievement night

Altona Skating Club closed out the season with its annual

Night Monday. The theme was From the Small Screen to the Big Stage and it had skaters of all ages dressed up as a variety of colourful characters to showcase their hard-won skills on the ice.

Zodiacs win provincials

FACEBOOK/GVCZODIACS

The Garden Valley Collegiate varsity girls team clinched the Provincial AAA Girls Basketball Championship in Winnipeg over the weekend. The team were undefeated in going up against the Churchill Bulldogs (78-56), the Elmwood Giants (70-60), and, in the championship final, the Sanford Sabres (66-55). Mendes Wall and Annika Dyck were named provincial all-stars and Maria Bergen got the MVP nod. The varsity boys Zodiacs also won their way to the final, having beaten Nelson McIntyre 77-65 and the Calvin Christian 71-68, only to fall against the Elmwood Giants 94-88 to rank second in the province. Dante Dyck was named to the provincial all-star team.

Recipe courtesy of "Cookin' Savvy"
Medium bowl
Warm water
Sourdough starter
Salt
Unbleached all-purpose flour
Silicone spoon
Softened butter
Brown sugar
Cinnamon
Sharp knife

In medium bowl, combine 330 grams warm water, 90 grams sourdough starter and 10 grams salt. Stir well then add 525 grams flour. Using silicone spoon, mix dough to sticky ball. Let rest, covered, about 45 minutes.

Pull dough from bottom and stretch to top of dough ball. Repeat around entirety of dough ball a few times then cover. Repeat process four times then

Cinnamon Brown Sugar Loaf

cover and let sit at room temperature at least 6 hours but no more than 14 hours. Dough should double.

In bowl, mix 4 tablespoons butter, 1/2 cup brown sugar and 2 tablespoons cinnamon.

Sprinkle flour on counter then spread dough flat on floured surface. Spread cinnamon mixture on dough. Fold dough from sides, pinching to keep cinnamon inside, then turn and roll into ball. Place on parchment paper and put back in bowl 1 hour.

Heat oven to 475 F with uncovered Dutch oven inside.

Using sharp knife, score dough then place parchment paper and dough in Dutch oven lined with aluminum foil. Cover with lid and bake 20 minutes then remove lid and lower temperature to 450 F for 25 minutes. Internal temperature should reach 195-205 F. Let rest at least 1 hour before cutting and serving.

cone spoon, mix dough to sticky ball. Let rest, covered, about 45 minutes.

Pull dough from bottom and stretch to top of dough ball. Repeat around entirety of dough ball a few times, adding 1 1/2 cups milk chocolate chips during process, then cover. Repeat process four times then cover and let sit at room temperature at least 6 hours but no more than 14 hours. Dough should double.

Sprinkle flour on counter then spread dough flat on floured surface. Fold dough from sides then turn and roll into ball. Place on parchment paper and put back in bowl 1 hour.

Heat oven to 450 F with uncovered Dutch oven inside.

Using sharp knife, score dough then place parchment paper and dough in Dutch oven. Cover with lid and bake 40 minutes. Internal temperature should reach 195-205 F. Let rest at least 1 hour before cutting and serving.

Cinnamon Chocolate Popcorn

Yield: 3 quarts
3 quarts popped popcorn
butter-flavored nonstick cooking

9 tablespoons powdered cocoa mix

(cocoa sweetened with sugar or sugar substitute)

3 teaspoons cinnamon

Place popcorn in large bowl and lightly spray with nonstick cooking spray.

Sprinkle cocoa mix and cinnamon on popcorn. Toss to coat evenly. Serve immediately.

spired Ask the money lady

Dear Money Lady Readers,

There are three major ways that Canadians invest in the market: fixed income investing, guided stock portfolios (which would include ETFs, MFs, bonds and various securities) OR through insurance products like annuities or segregated funds. Then there are other ways to invest – like buying real estate, cryptocurrency, commodities, and leverage lending. Today we're just going to cover the basics to get you started and give you some ideas so that you can discuss them with your advisor.

Let's start with fixed income investing which is often overlooked because it isn't as exciting as buying and selling stocks. It's primarily a rules-based philosophy that takes all emotion out of the equation. You simply follow the rules and get a solid return. Laddering is the most common method and today there's \$11 trillion invested this way in Canada alone. When you look at the markets from a long-term perspective, fixed income portfolios win every time. They're not as glamorous as picking stock, however because of their stability and security, almost all large corporate and government pension funds are done through this method. One thing you must remember with fixed income products is that they consist mostly of different types of bonds and buying them is like buying real estate. That means, you can't turn around and sell them immediately after the purchase like you can with stock. The way it works is, you buy them at a discount, and then they mature at par. Meaning on the maturity date you know exactly what you're going to get. Most people who invest in real estate and want a tangible asset, choose to diversify their investments in institutional bonds because of the similarities. At the retail bank level, you could also consider structured notes as an alternative fixed income strategy.

Guided stock portfolios are the other great method for Canadians to invest. But we seem to have a large expertise gap with some advisors, and most are pushing clients into mutual funds and managed accounts. Now, is that a bad thing? Maybe not. Today there are over 135,000 mutual funds to choose from worldwide with over \$1.7 trillion invested in Canada. So, let's talk about mutual funds since they seem to be the product of choice.

Christine Ibbotson

A mutual fund, (MF) is just that a fund of different types of products such as stocks, bonds, and money markets. When you invest in a MF you invest money into the fund with everyone else, and by doing so, your contribution is measured in units. You will be given a number of units based on the daily market price called a NAV price per share (net asset value) and you will share in the income, gains, losses, and expenses of the fund you now partially own. MFs are a great way for any investor to take advantage of buying into a fund, managed by a professional with good diversification. That's because a typical fund could have a portfolio of 60 to 100 different securities, across 15 to 20 different industries. The average investor can't be expected to hold a stock portfolio of that size. It's just not possible. No one has the time, knowledge, or expertise to do so. This is why MFs could be a good choice.

If you choose to invest in MFs, take note of the load fees and trailer fees. This will be expressed in the management expense ratio, (MER). Also remember that MFs are not a short-term investment unless you opt for the money market funds. When you purchase MFs, plan to hold them for at least a year and make sure you know when the fund distribution times are so that you can avoid higher pricing or any tax implications when you initially buy in.

Good Luck and Best Wishes,

Money Lady
